

**[TOPIC] Team Hino's Response to COVID-19**

The COVID-19 pandemic has had a tremendous impact and change on society, and the rediscovery of the importance of trucks and buses that are involved with the movement of people and things is one of them. With responsibility and pride in helping people and goods get where they need to go and supporting society, each Team Hino member thinks about what he or she can do and continues to work to accomplish it. To prevent the virus' s spread, we will leverage the expertise and knowhow developed though our business and maintain our various contribution activities.

● Direction of "Team Hino" Initiatives

1. Drive the provision of products and services that society and customers need
2. Contribute to the community as a corporate citizen
3. Help our customers in the transportation and logistics industries by rigorously taking steps to prevent virus infection in accordance with the health administration policies of each country and protecting the health of employees and their families.

◆ Continuing to provide products and services that society and customers need

Team Hino members throughout the world are engaged in a wide range of activities such as producing videos on effective in-vehicle ventilation methods, driver protection shields to prevent infection on buses, and free disinfection of trucks.

Disinfection of customer vehicle  
(Thailand)

(South Africa)

Production of driver's seat protection shield(Bus)

◆ Contributions to local communities

Not only are we donating masks and face shields to nearby medical institutions and municipalities, we are also distributing infection control guidebooks to overseas dealers. Furthermore, the Hino Head Office plant and our Thai affiliate J. Filter Co., Ltd. have started producing masks and face shields. Leveraging our manufacturing expertise, we are considering what we can do to contribute even more and implementing it.
