1. Qualitative Information Regarding the Financial Performance for the Current Quarter

(1) Information on Consolidated Operating Results

As for the Japanese domestic truck and bus market during the current interim period, the demand for light-duty trucks dropped from the previous year due to the issue with supply, while the demand for medium and heavy-duty trucks was unchanged from the previous year. In the bus market, the demand for large-sized sightseeing buses grew thanks to the recovery of demand from foreign visitors to Japan, etc., but the total demand for buses was unchanged from the previous year. As a result, the total demand for heavy-duty, medium-duty, light-duty trucks, and buses decreased to 73.6 thousand units by 6.8 thousand units (-8.4%).

As for Japanese domestic sales, the total sales volume of trucks and buses was 15.3 thousand units, a decrease of 5.3 thousand units (-25.8%) compared to the same quarter in the previous year mainly due to a decrease in sales of light-duty trucks. As for overseas trucks and buses market, mainly the due to the economic downturn in ASEAN countries, overseas sales volume of trucks and buses was 35.0 thousand units, a decrease of 10.9 thousand units (-23.7%) compared to the same quarter in the previous year.

As a result of the above, total unit sales of Hino Brand trucks and buses were 50.3 thousand units, a decrease of 16.2 thousand units (-24.3%) compared to the same quarter in the previous year.

As for the volume of sales to Toyota Motor Corporation, total sales volume was 77.7 thousand units, an increase of 8.0 thousand units (11.4%) compared to the same quarter in the previous year, mainly the due to an increase in the sales volume of SUVs.

As a result of the above, net sales in the current interim period were \(\frac{4742,859}{742,859}\) million, which is a decrease of \(\frac{4104,686}{104,686}\) million (-12.4%) as compared to the same quarter in the previous year. As for profit and loss, due to the reduction of fixed costs despite the drop in unit sales inside and outside Japan, operating income was \(\frac{438,073}{38,073}\) million which is an increase of \(\frac{413,976}{117,093}\) million (58.0%) compared to the same quarter in the previous year, ordinary income was \(\frac{436,541}{36,541}\) million which is an increase of \(\frac{417,093}{417,093}\) million (87.9%) compared to the same quarter in the previous year, and profit attributable to owners of parent was \(\frac{422,502}{422,100}\) million (loss attributable to owners of parent of \(\frac{4219,598}{4219,598}\) million in the same quarter in the previous year) compared to the same quarter in the previous year.

The performance in each segment is as follows:

(Japan)

In the Hino brand business, sales of trucks and buses to the Japanese market decreased mainly due to a decrease in unit sales of light-duty trucks. Overseas sales decreased due to a decline in unit sales to Asia and North America. Furthermore, sales to Toyota decreased due to a decrease in sales of light-duty trucks despite an increase in unit sales of SUV.

As a result, net sales were \(\frac{\pmathbf{\text{\tinx}\text{\tinx}\text{\ti}\text{\texi}\text{\text{\text{\text{\text{\text{\texi}\text{\text{\text{\texitit{\text{\text{\texi}\tint{\text{\text{\text{\text{\text{\text{\t

(Asia)

Net sales decreased \$21,769 million (-10.4%) compared to the same quarter in the previous year to \$187,998 million, mainly due to a decrease in unit sales in Indonesia. The profit (operating income) in this segment was \$8,685 million, a decrease of \$2,455 million (-22.0%) compared to the same quarter in the previous year.

(Other)

Net sales were \(\frac{\pmathbf{4}135,545}{\text{ million}}\), a decrease of \(\frac{\pmathbf{3}3,201}{\text{ million}}\) (-20.6%) compared to the same quarter in the previous year, due to a decrease in the number of units sold in North America and Latin America. The profit (operating income) in this segment was \(\frac{\pmathbf{5}}{\pmathbf{7}61}\) million, an increase of \(\frac{\pmathbf{5}}{\pmathbf{5}},260\) million compared to the same quarter in the previous year (a profit of \(\frac{\pmathbf{5}}{\pmathbf{5}}01\) million in the same period of the previous fiscal year).

(2) Information on Consolidated Financial Position

Total assets at the end of the first half decreased to \$1,320,788 million by \$157,391 million compared to the end of the previous fiscal year. This is mainly because cash and deposits decreased by \$93,871 million and notes and accounts receivable – trade decreased by \$26,675 million.

Liabilities decreased to \$1,043,316 million by \$183,843 million compared to the end of the previous fiscal year. This is mainly because provision for certification-related loss decreased by \$97,237 million and long-term accounts payable - other decreased by \$19,670 million.

The decreases in cash and deposits and provision for certification-related loss are attributable to the payment of part of a criminal penalty and a civil penalty based on the settlement with the U.S. authorities regarding the engine certification issue of Hino Motors.

Net assets increased to \$277,472 million by \$26,451 million compared to the end of the previous fiscal year. This is mainly because profit attributable to owners of parent of \$22,502 million was posted.

(3) Information on Forecasts of Consolidated Financial Results

We have revised the full-year consolidated earnings forecast, while considering the variation in the number of vehicles manufactured as entrusted by Toyota Motor Corporation and the situation of domestic and overseas sales of our trucks and buses.

(Consolidated Earnings Forecast for the Full Fiscal Year)

Net sales	¥1,500,000 million
Operating income	¥65,000 million
Ordinary income	¥60,000 million
Profit attributable to owners of parent	¥40,000 million
Japan unit sales of trucks and buses	33.0 thousand units
Overseas unit sales of trucks and buses	75.5 thousand units
Unit sales of Toyota brand vehicles	165.5 thousand units

^{*} The above forecasts are created based on the information available to the company and on certain assumptions deemed reasonable and are not guaranteed to be achieved.

(Regarding Revenue Recognition)

The breakdown of revenues from contracts with clients is as shown in "Notes (Segment Information, etc.)."

(Per share Information)

The interim profit (loss) per share and the basis for calculating it are as follows.

Item	1H of FY 2025 (From April 1, 2024 to September 30, 2024)	1H of FY 2026 (From April 1, 2025 to September 30, 2025)	
Interim profit (loss) per share	-382.56	39.20	
(Basis of calculation)			
Interim profit (loss) attributable to owners of parent (Millions of yen)	-219,598	22,502	
Amount not attributable to common shareholders (Millions of yen)	_	-	
Interim profit (loss) attributable to owners of parent associated with common shares (Millions of yen)	-219,598	22,502	
Average number of common shares (Shares)	574,028,810	574,044,516	

(Note) Diluted interim net income per share is not written, because there are no dilutive shares.

(Contingent Liabilities)

· Certification issues

Regarding the falsification for engine certification, we have continued communication with relevant institutions. The amounts that can be estimated reasonably have been reflected in interim consolidated financial statements, based on the costs of compensation for gas mileage to customers regarding engine certification issues in the Japanese market, etc., and the agreement through the settlement with the U.S. authorities regarding the falsification for engine certification in the U.S. market.

Meanwhile, expenses stemming from settlements related to certification issues with government authorities in countries other than the U.S. have not been reflected on interim consolidated financial statements as it is difficult to reasonably calculate the amount of impact at this point in time.

· Litigation against our company and subsidiaries outside Japan

Class action lawsuit in New Zealand

On March 3, 2025 (local time), our company was sued in the Palmerston North High Court, New Zealand.

The plaintiffs sued our company as a class action on behalf of all persons who between March 4, 2010 and March 3, 2025 purchased, exchanged or leased vehicles equipped with diesel engines manufactured by our company between January 1, 2003 and August 22, 2022. The plaintiffs claim, among other things, to have suffered damage as a result of fraudulent and other acts related to violations of emission performance standards and fuel economy standards for our company's engines.

In the complaint in this lawsuit, the plaintiffs claim damages, but the specific amounts claimed by the plaintiffs have not been disclosed in any way.

The claims and details concerning damages claimed by the plaintiffs in the class action lawsuit in New Zealand are currently being confirmed. Loss may arise depending on the result of this lawsuit, but as it is difficult to reasonably calculate the impact at this point, it has not been reflected on the interim consolidated financial statements.

3. Supplementary Information
