## Qualitative Information Regarding the Financial Performance for the Current Quarter

### (1) Information on Consolidated Operating Results

We deeply apologize once again to our customers and all other stakeholders for betraying their trust and causing great inconvenience by violating related laws and regulations through long-standing misconduct, despite our position in the social infrastructure for transportation of people and logistics.

We sincerely regret this incident, and we will once again return to our mission statement, "We make a better world and future by helping people and goods get to where they need to go," and management will take the initiative and push forward with company-wide reforms to ensure that fraud will never occur again.

As for the Japanese domestic truck market during the current second quarter (six months), total sales of heavy-and medium-duty trucks and light-duty trucks decreased significantly due to supply disruptions caused by vehicle production delays due to the global semiconductor shortage. In the domestic bus market, total sales volume of buses also declined, mainly due to a drop in tourism demand caused by the prolonged impact of COVID-19. As a result of the above, total domestic sales volume of trucks and buses was 58.9 thousand vehicles, a decrease of 24.7 thousand vehicles (-29.6%) compared to the same quarter in the previous year.

Due to the impact of the suspension of shipment resulting from our company's fraudulent actions regarding engine certification, in addition to the market decline, total domestic sales volume of trucks and buses was 18.6 thousand vehicles, a decrease of 10.6 thousand vehicles (-36.3%) compared to the same quarter in the previous year.

The overseas truck and bus market is on a recovery trend, mainly in ASEAN countries, and overseas sales volume of trucks and buses was 55.8 thousand vehicles, an increase of 11 thousand vehicles (24.7%) compared to the same quarter in the previous year.

As a result of the above, total unit sales of Hino Brand trucks and buses were 74.4 thousand units, an increase of 0.4 thousand units (0.6%) compared to the same quarter in the previous year.

As for the volume of sales to Toyota Motor Corporation, the sales volume of SUVs increased, so the total sales volume was 72.1 thousand units, an increase of 4.1 thousand units (6.1%) compared to the same quarter in the previous year.

As a result of the above, net sales in the current second quarter were \(\frac{4}{3},359\) million, which is an increase of \(\frac{4}{4}3,973\) million (6.4%) as compared to the same quarter in the previous year. As for profit and loss, despite a favorable turnaround in the foreign exchange environment, due to the deterioration in the vehicle mix caused by the decline in domestic sales volume, operating income was \(\frac{4}{1}6,615\) million which is a decrease of \(\frac{4}{1}5,197\) million (-47.8%) compared to the same quarter in the previous year, ordinary income was \(\frac{4}{2}0,548\) million which is a decrease of \(\frac{4}{1}1,686\) million (-36.3%) compared to the same quarter in the previous year, and profit attributable to owners of parent was \(\frac{4}{3},478\) million which is a decrease of \(\frac{4}{8},278\) million (-70.4%) compared to the same quarter in the previous year.

## (2) Information on Consolidated Financial Position

Liabilities increased to \$777,074 million by \$34,731 million compared to the end of the previous fiscal year. This is mainly because interest-bearing liabilities increased by \$50,859 million, while notes and accounts payable - trade decreased by \$18,778 million.

Net assets increased to ¥537,956 million by ¥21,948 million compared to the end of the previous fiscal year. This is mainly because profit attributable to owners of parent of ¥3,478 million was recorded and foreign currency translation adjustment increased by ¥11,885 million.

## (3) Information on Forecasts of Consolidated Financial Results

At the time of the announcement of financial results on July 28, 2022, we had stated that the timing of resumption of shipment of the car models that were the subjects of the fraudulent acts was undetermined because it was difficult to reasonably foresee the timing. Although it is still difficult to foresee when we will be able to resume the shipment of some models, we have decided to announce net sales and operating income based on calculations using available information for the models that are currently approved for shipment.

Our company will continue to refrain from announcing ordinary income, profit attributable to owners of parent, and net income per share because it is difficult to make a reasonable calculation of some certification-related losses due to the certification fraud at this time. We will disclose the information when a reasonable calculation becomes possible.

| (Consolidated Earnings Forecast for the Full Fiscal Ye | ar)                |
|--|--------------------|
| Net sales  | ¥1,530,000 million |
| Operating income                                       | ¥6,000 million     |
| Japan unit sales of trucks and buses                   | 37 thousand units  |
| Overseas unit sales of trucks and buses                | 120 thousand units |
| Unit sales of Toyota brand vehicles                    | 142 thousand units |

#### (Additional Information)

Extraordinary losses

(Loss related to domestic certification)

Our company has confirmed that there was fraud in the engine certification procedure for the Japanese market, and that there was a problem with engine performance. As a result, recall costs of 1,960 million yen and compensation loss of 2,646 million yen based on the agreement with suppliers, etc., totaling 4,606 million yen were recorded as domestic certification-related losses in extraordinary losses.

#### (Contingent Liabilities)

· Certification issues

Regarding the impact of the certification issue for engines for the North American and Japanese markets, the investigation by the special investigation committee for engines for the Japanese market has been completed, but some verification, investigations and communications with related parties are still ongoing, and it is difficult to reasonably estimate the impact other than the amount already identified at this time. Accordingly, our company has not reflected the impact of the certification issue on our quarterly consolidated financial statements.

· Litigation against our company and subsidiaries outside Japan

#### Class action lawsuit in Florida, U.S.A.

On August 5, 2022 (local time), our company, U.S. subsidiaries, and parent company were sued in the U.S. District Court for the Southern District of Florida, Miami Division.

The plaintiffs, in a putative class action lawsuit on behalf of persons who purchased or leased our company's 2004 through 2021 model year trucks sold in the United States, allege, among other things, that they have suffered damages as a result of past fraud and other wrongful acts.

In the complaint in this lawsuit, the plaintiffs claim damages, punitive damages, and rescission of the purchase agreement, etc., against our company and others, but the specific amounts claimed by the plaintiffs are not disclosed in any way.

### Class action lawsuit in Victoria, Australia

On September 30, 2022 (local time), our company and Australian subsidiaries were sued in the Superior Court of Victoria, Australia.

The plaintiffs are suing as a class action on behalf of all persons in Australia who purchased, leased, or otherwise legally entitled to our trucks from January 1, 2003 through September 30, 2022. The lawsuit alleges, among other things, that the plaintiffs have suffered damages as a result of fraudulent and other acts relating to violations of emission performance standards and fuel economy standards for our company's engines.

In the complaint in this lawsuit, the plaintiffs claim damages against the Company and others for fraud and other wrongful acts in connection with quality assurance under Australian laws and regulations, but the specific amounts claimed by the plaintiffs are not disclosed in any way.

Since it is difficult to reasonably predict the impact of the above two lawsuits at this time, the amounts are not reflected in the quarterly consolidated financial statements.
