1. Basic Views

As a company that manufactures and sells trucks and buses needed for distribution and transportation, Hino Motors is working to fulfill its corporate mission: “To make the world a better place to live by helping people and goods get where they need to go—safely, economically and with environmental responsibility—while focusing on sustainable development” At the same time, the Company has taken a clear stand on its responsibility to contribute to society and has set related goals under the Hino Credo, along with its Core Principles and CSR Charter.

To fulfill its corporate mission, Hino Motors is striving to build on the positive relationships it has established with its stakeholders, which include shareholders, customers, business partners, local communities around the world, and employees. Based on this stance, Hino Motors is working to enhance its corporate governance with the goal of achieving sustainable growth and raising its corporate value over the medium to long term as a global company.

In addition, Hino Motors endorses the Corporate Governance Code prescribed by the Financial Services Agency of Japan and has devised various measures based on the objectives and intent of the code’s guidelines and principles. As a basic policy, Hino Motors intends to pursue these measures as a means of strengthening its corporate governance.

[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

Prior to its revision in June 2018, Hino Motors has implemented each of the Principles of the Code. Based on the revised version of the Code, Hino Motors is planning to update its own measures by December 2018.

With regard to the exercise of voting rights related to cross-shareholdings, Hino Motors emphasizes dialogue with the investee company to verify and decide on each proposal from the perspectives of future increases in corporate value and improvement in shareholder returns based on respect for the management policy of the investee company rather than determining approval or disapproval in a uniform manner.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System)

1) Overview of Current System (please read in conjunction with corporate governance at Hino Motors (schematic diagram) on the last page of this document)
Hino Motors is a company that employs an Audit & Supervisory Board and has established a Board of Directors, audit & supervisory board members, an audit & supervisory board and an accounting auditor. The Company's Board of Directors is composed of 10 directors (the number as of the date of submission of this

document including two outside directors as defined by Japan's Companies Act. The Company's Articles of Incorporation stipulate a maximum number of 15). The Board of Directors makes decisions on important matters of business execution and supervises the execution of duties by the directors. The Company also employs a system of executive vice presidents, senior managing officers, managing officers, and a four unit set-up, with the aim of streamlining the Board of Directors and flexible execution of business.

The Company has also established a Management Committee made up of full-time directors and audit & supervisory board members to deliberate on the management policies and strategies of the Company and to report information that is important for management.

Hino Motors has established a Corporate Governance Committee in response to the election of outside directors with the aim of increasing the effectiveness of corporate governance and contributing further to sustained growth and enhancement of corporate value. The Corporate Governance Committee discusses the form that the Board of Directors should take (recommendations to the Board of Directors as necessary) and shares management information with the involvement of all of the outside directors and non full-time director. In fiscal 2017, the Corporate Governance Committee met three times.

Hino Motors' Audit & Supervisory Board comprises four audit & supervisory board members (the number as of the date of submission of this document including two outside audit & supervisory board members; the Company's Articles of Incorporation stipulate a maximum number of seven). Conforming to the standards for audits by the audit & supervisory board members stipulated by the Audit & Supervisory Board, the audit & supervisory board members communicate with the directors, the Internal Audit Department, and other employees and work to gather information and establish the audit environment in accordance with the Company's audit policy and planning. They also audit the status of Company operations and assets by attending meetings of the Board of Directors and other important meetings, hearing about the execution of duties from the directors and other employees, viewing important approval documents, visiting each business site and visiting subsidiaries inside and outside Japan, and supervise the execution of duties by the directors. The audit & supervisory board members receive reports on audit planning, the implementation and results of audits, and the status of implementation of their duties from the accounting auditors and exchange opinions in addition to striving for mutual cooperation which includes witnessing onsite audits at subsidiaries during the fiscal year and monitoring and verifying the maintenance of independence and the performance of proper auditing by the accounting auditors. They also review the Business Report, financial statements and supplementary statements, and the consolidated financial statements.

Hino Motors has also established an Internal Audit Division. In addition to conducting audits of the development and operation of internal control systems relating to financial reporting in each department and at subsidiaries based on in-house regulations, the Internal Audit Division seeks to enhance internal control by conducting audits of the legality, appropriateness, and efficiency of business, while urging each department and subsidiary to make the necessary improvements. The division also reports the findings of internal audits to the audit & supervisory board members as appropriate and shares information with the audit & supervisory board members and the accounting auditors in relation to audits by the audit & supervisory board members and to accounting audits.

2) Outside Directors and Outside Audit & Supervisory Board Members

To oversee the execution of duties by the directors, Hino Motors has appointed two outside directors, both of whom are independent directors, as provided for in Japan's Companies Act. The outside directors are contributing to transparent, fair, swift and resolute decision making by playing a management oversight role for important decision making by the Board of Directors as well as participating in active and constructive discussion at the Corporate Governance Committee and inspecting the business sites of Hino Motors and its affiliated companies inside and outside Japan.

To monitor the execution of duties by the directors, Hino Motors has also appointed two outside audit & supervisory board members, both whom are independent audit & supervisory board members, as provided for in Japan's Companies Act. The Company considers that there is an adequate management monitoring function to oversee the appropriateness and legality of management through the implementation of objective audits in partnership with the two full-time audit & supervisory board members.
